

Red Rock Leisure

Time + Attendance For The Hospitality Industry

The Company

Red Rock Leisure is a leading hospitality company that has a number of iconic brands including the award winning Colonial Tramcar Restaurant, P. J O'Brien's Pubs, Eureka Skydeck 88, Melbourne Airport Food and Beverage Concessions, Restaurants including Fraser's – Kings Park and Bluewater Grill in Perth, The Pier Bar and Rattle n Hum Grills in Cairns and Bear Brass – Southbank, Melbourne.

The Problem

With over 1200 staff in various locations throughout Australia Red Rock Leisure needed a tamper proof way of accurately capturing the times that people worked. Red Rock Leisure decided to introduce biometric timeclocks to guarantee the identity of the staff and the time they reported for work. As a large majority of the staff are casual employees Red Rock did not want the on-going problem and cost of issuing staff with ID cards and the problems of collecting large numbers of manual timesheets from the various locations.

The Solution

Red Rock Leisure conducted a detailed evaluation of various biometric devices and the companies that supplied them. Red Rock was looking for a company that was flexible and responsive to their needs and provided a high quality biometric timeclock. It was also important that the timeclock provided value for money, high reliability, had the facility to be networked to a central location and had a flexible method of outputting the data collected.

BRS and BioScan was a clear winner for Red Rock Leisure.

The Benefits

James Cockburn, Group Technology Manager, said:

"BRS and BioScan ticked all the boxes that Red Rock was looking for. We currently have 12 BioScans installed at our locations around Australia and they have delivered the accuracy and reliability we expected. We are currently planning to expand our operations and BRS and BioScan will be an important part of that expansion."
